VERSAMAX

SOLID PHENOLIC LOCKERS

VersaMax™ Solid Phenolic lockers are engineered to the same high level of integrity found throughout our AMP locker line.

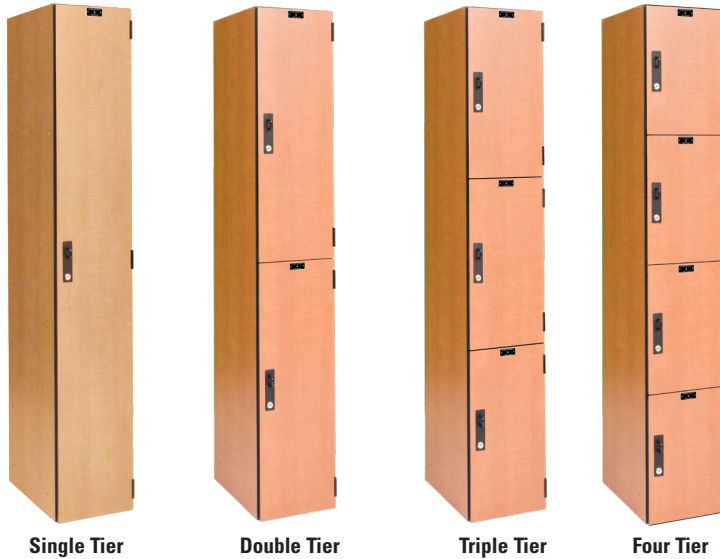

The unique qualities of phenolic resin offer many value added benefits:

- ✓ **Environmentally smart**
- ✓ **Moisture resistant, perfect for wet or damp areas**
- ✓ **Mold and mildew resistant**
- ✓ **Many color and finish options**
- ✓ **Laminate surface is graffiti and scratch resistant**
- ✓ **Standard Phenolic material is Class 2, Class B Fire Rated**
ASTM E84 Class 1, Class A Fire Rated is available as an upgrade

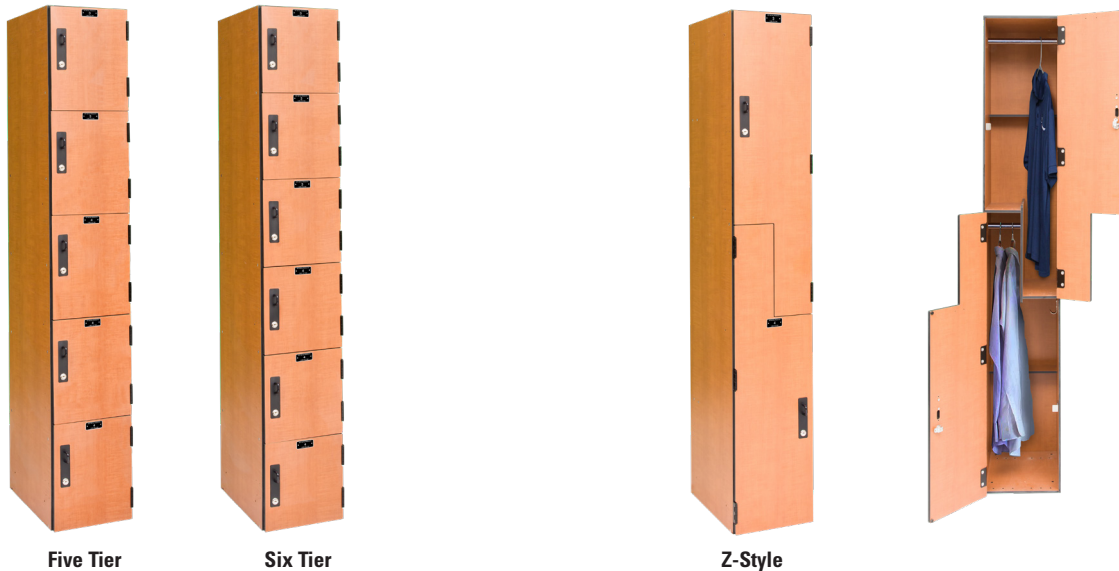

VERSAMAX™ SOLID PHENOLIC LOCKERS

VersaMax™ Solid Phenolic lockers are available in a variety of locker styles to meet your specific storage needs.

- **Single Tier** lockers are perfect for hanging of longer garments
- **Double Tier** lockers offer plenty of height for hanging coats and garments while using half the floor space of a single tier locker
- **Triple Tier** lockers are our most economical wardrobe locker allowing hanging garments to be draped from the coat hook
- **Four Tier** lockers provide ample storage for larger personal items like backpacks, totes, etc.

- **Five tier** lockers are available in 12" and 14.4" high openings allowing for storage of personal belongings
- **Six Tier** lockers are the most economical storage solution for purses, bags, phones and other smaller personal items
- **Z-Style Lockers** are the perfect compromise between single and double tier lockers offering the perfect solution when space is at a premium, but hanging of longer garments is needed.

Sport	18", 24" 30", 36"	18", 20", 24"	N/A	72", 84"

VERSAMAX™ SPECIFICATIONS

DOORS:

Our door over body design provides several major benefits

- Allows air-flow from all directions for maximum locker ventilation without unsightly door perforations
- Provides an added 2-3" of clear locker opening which can provide up to 25% more storage space vs conventional door in frame lockers
- Esthetically pleasing modern design with clean shadow lines and reveals
- Doors are 1/2" thick solid phenolic

BODY:

Construction of our locker body is second to none

- Interlocking components by means of dado and mortise & tenon joints reinforced with stainless steel screws for perfect alignment and maximum strength
- Top, bottoms and shelves are 3/8" thick solid phenolic
- Sides are 5/16" thick solid phenolic
- Backs are 1/4" thick solid phenolic

HARDWARE AND ACCESSORIES:

We utilize the industry's best available hardware to meet the high expectations of our customers.

- **Door Hinges** are 14 gauge 5-knuckle 304 stainless steel with eased top and bottom edges for safety allow doors to open a full 180-degrees.
- **Hinges** are powder coated black to match phenolic core
- **Padlock Hasp** is fabricated from 11 gauge 304 stainless steel
- **Hanging garment J-Hooks** are 304 stainless steel
- **Stainless Steel Coat Rods** are optional for 1-Tier, 2-Tier, & Z-Style lockers 18" doors & deeper
- **Door Pull** is 304 Stainless Steel and powder coated black to match phenolic core
- **Number Plates** are aluminum and included at no additional charge. They are etched with numbers 1 and up unless otherwise specified. Doors are pre-drilled to allow for easy installation of number plates
- **Assembly Hardware:** Stainless Steel tamper resistant torx head through-bolts are used for locker component assembly and hardware installation
